**Subject:** RE: Two FOIA Requests

Dear Jonathan:

Thank you for the response to one of the FOIA requests and for providing me with a status on the other one.

I have some questions regarding your response. I realize you may be acting as the “middle man” here, but I would like to know the following:

1. Some of the emails had redactions. What was the basis for those redactions (other than perhaps Nancy Moon doesn't want me to have the contact information for the government officials she spoke with, which isn't a valid reason to take an exemption)?
2. It is unclear who Amy Arnold is. Is there a communication to or from that person that wasn't provided?
3. There is a copy of the HDC charter proposal, but it's not attached to any communication. Can you please provide the communication?
4. When you say no other related documents are available from Mr. Hauxwell or other officials of the city, does that mean the HDC commissioners told you they had no records, or does it mean they didn't respond to the request?

How much more time will you need to provide a final response to both requests?

Thanks,  
Susan
